

GRADUATE, SUMMER VACATION & CASUAL POSITIONS NOW OPEN

Whether you're starting out your career or want to gain some industry experience whilst still studying we have a role to suit you. Our positions offer the opportunity to work as part of a dynamic team on a diverse range of interesting and challenging jobs. The firm is led by highly regarded, experienced industry practitioners who are more than happy to share their knowledge with less experienced staff.

ABOUT QUANTIUM

Quantium is a fast paced, innovative actuarial consultancy specialising in marketing analytics and general insurance. We have 60 staff based in Sydney, Brisbane and Melbourne, servicing blue chip clients across Australia, New Zealand and Europe.

We apply sophisticated statistical modelling and strategic thinking to marketing-related problems for leading brands in industries such as telecommunications, retail, media, banking and broader financial services. We work with clients in areas such as media optimisation, price optimisation, propensity modelling and customer value management.

Within the general insurance industry, we work with every major insurer across areas such as pricing, reserving, capital modelling and strategy. Part of the EMB Group, we utilise market leading software to help our clients build on their internal capability to build best practice processes and models in all aspects of financial management.

WHAT WE ARE LOOKING FOR

We are currently accepting applications for recent graduates who are able to start immediately, graduates to start in 2011, summer vacation positions in 2010/11 and casuals to assist with our Market Blueprint® offering.

Targeted disciplines for all roles include Actuarial studies, Mathematics, Statistics and Engineering.

GRADUATE ROLES

We are seeking recent graduates who are available for an immediate start and graduates wanting to be part of our 2011 graduate program. Your role will include supporting both marketing and general insurance related client work.

Ideal candidates will have a firm technical foundation, as evidenced by sound academic achievement, complemented by strong communication skills, good problem solving ability (including in unfamiliar situations) and an agile mind. An appreciation of the broader commercial environment is essential.

SUMMER INTERNSHIPS 2010/11

Do you want to gain some industry experience whilst still studying? We are seeking highly capable individuals for summer vacation employment commencing in December 2010 for an 8 – 10 week period.

Ideal candidates will firm technical foundation, as evidenced by sound academic achievement, complemented by strong communication skills, good problem solving ability (including in unfamiliar situations) and an agile mind. An appreciation of the broader commercial environment is essential.

CASUAL POSITIONS

We are seeking an individual to start immediately to support our Market Blueprint® offering to clients. Successful applicants will have the opportunity to work as part of a dynamic team and to experience the day to day challenges of the consulting environment.

The role will provide experience working on an in-house software package developed for clients, participating in a team environment, improving communications and computer skills using Microsoft Excel and SQL.

Ideal candidates will have a good problem solving ability, be computer literate and have strong communication skills and a high attention to detail.

The role will be part time with flexible work hours as we realise the need for students to work fewer hours during exam periods.

HOW TO APPLY

For all positions please email your cover letter, resume and a copy of your academic transcript to recruitment@quantium.com.au. Please quote the relevant reference listed below in the email subject line for the position you are applying for.
